This information was thought to be accurate at the time of publication.
Launches can be delayed for any operational reason with little or no notice.

SDO, Solar Dynamics Observatory. The first Space Weather Research Network mission in NASA's Living With a Star (LWS) Program.

- o Booster: Atlas V
- o Launch date: 2010-02-11, 10:23 AM EST

GOES P, Geostationary Operational Environmental Satellite, a weather satellite for geostationary orbit.

- o Booster: Delta IV
- o Launch date: 2010-03-01, 6:19 PM EST

Falcon 9, A reusable two-stage-to-orbit launch vehicle manufactured by SpaceX. This test flight will carry a mock-up of the SpaceX Dragon capsule.

- o Booster: Falcon 9
- o Launch date: 2010-03-08, 11:00 AM EST

STS-131, ISS Mission 19A will carry a Multi-Purpose Logistics Module filled with science racks that will be transferred to the International Space Station.

- o Booster: Space Shuttle Discovery
- o Launch date: 2010-04-27, 6:27 AM EDT

OTV, Orbital Transfer Vehicle. A demonstration space-plane that is intended to test future launch technologies while in orbit and during atmospheric reentry.

- o Booster: Atlas V
- o Launch date: 2010-04-19

Dragon, A free-flying, reusable spacecraft being developed by SpaceX under NASA's Commercial Orbital Transportation Services (COTS) program.

- o Booster: Falcon 9
- o Launch date: 2010-04-XX

NAVSTAR 2F-1, Global Positioning System Satellite

- o Booster: Delta IV
- o Launch date: 2010-05-13, 03:19 AM EDT

STS-132, ISS Mission ULF4 will carry an integrated cargo carrier to deliver maintenance and assembly hardware, including spare parts for space station systems.

- o Booster: Space Shuttle Atlantis
- o Launch date: 2010-05-14, 2:28 PM EDT

Dragon, A free-flying, reusable spacecraft being developed by SpaceX under NASA's Commercial Orbital Transportation Services (COTS) program.

- o Booster: Falcon 9
- o Launch date: 2010-06-XX
