The launch will be from the Kennedy Space Center, Complex 39A. The first stage of the Falcon 9 booster is expected to land on a barge in the Atlantic Ocean off Charleston SC. The landing will be too far to see from launch viewing areas, though upper atmosphere course correction burns might be visible about 7 minutes after launch.

SpaceX has articulated the explicit goal of providing broadband internet connectivity to underserved areas of the Earth, as well as to provide competitively-priced, low latency service to urban areas. Moreover, SpaceX has indicated that the positive cash flow from selling satellite internet services would be necessary to fund SpaceX plans for Mars.

Satellites in orbit, with more on the way.

ground stations. There are currently more than 1,700 Starlink low faster internet connections without multiple 'hops' via satellites in the constellation. Inter-satellite laser comm links will also include some inter-satellite communications among satellites numbers were launched out of order). Many of these satellites Starlink-0, so this flight is designated Starlink-17 (Some batch-ites into orbit. The first launch of 60 satellites was considered Today's launch will put the twentieth 'batch' of Starlink satellites.

Space Exploration Technologies Corp, known around the world as SpaceX, is launching its next 'batch' of Internet Broadband satellites.
