Space Launch Complex 40. The first stage of the Falcon 9 booster is expected to land on a barge in the Atlantic Ocean off Charleston SC. The landing will be too far to see from launch viewing areas, though upper atmosphere course correction burns might be visible about 7 minutes after launch.

The launch will be from the Cape Canaveral Space Force Station, to fund SpaceX plans for Mars.  
flow from selling satellite internet services would be necessary areas. Moreover, SpaceX has indicated that the positive cash as to provide competitively-priced, low latency service to urban internet connectivity to underserved areas of the Earth, as well SpaceX has articulated the explicit goal of providing broadband Starlink Satellites in orbit, with more on the way.  
'hops' via ground stations. There are currently more than 1,700 links will allow faster internet connections without multiple among satellites in the constellation. Inter-satellite laser comm satellites will include some inter-satellite communications Starlink-0, so this flight is designated Starlink-18. Many of these lites into orbit. The first launch of 60 satellites was considered Today's launch will put the nineteenth 'batch' of Starlink satel-  
Space Exploration Technologies Corp, known around the world as SpaceX, is launching its next 'batch' of Internet Broadband satellites.
